	 <p>The screenshot shows the EXE.UA website's 'Video Cards' category page. On the left, a 'Filter' sidebar is active. Under the 'Price' section, the 'from' field contains '-1' and the 'to' field contains '-3'. Red arrows point to these fields, indicating the test input. Below the price filter, a list of manufacturers is visible, including AFOX, AMD, ARKTEK, AsRock, Asus, Biostar, and Dell. The main content area displays several video cards, each with a banner indicating low stock: 'ONLY 5 LEFT IN STOCK' and 'ONLY 1 LEFT IN STOCK'. The cards are MSI GeForce GT1030 2048Mb AERO ITX. The website header includes the EXE.UA logo, contact information, and a navigation menu.</p>
